India assumes G20 Presidency, 2022-23.

India's G20 leadership, as Prime Minister Narendra Modi laid out, will be an ideal platform to showcase India's development. With sound macroeconomic fundamentals, robust public finances, soaring manufacturing and export trajectories and resolute climate action leadership, India is a glorious bright spot shining on the global horizon.

The year 2022 was a milestone year for Rialto. Emerging from the uncertainties of the pandemic years, we were quick to adapt to the challenging conditions and were able to meet the increasing demands of the global markets. Our numerous initiatives focussed on Diversity, Women Entrepreneurship, Sustainability and GoGreen efforts have been recognised by the industry body Confederation of Indian Industry and government authorities. Our consistent performance ensured that we received the prestigious P&G Global Business Partner of the Year Award for the 3rd time. We are fully geared up to meet ever-increasing opportunities and look forward to exciting times as we move into the New Year.
