

RIALTO GETS RECOGNISED FOR ITS WATER MANAGEMENT, ENVIRONMENTAL RESTORATION, CARBON-POSITIVE INITIATIVES AND EHS PRACTICES

Environmental sustainability has become a global imperative & integral part of all Industries. Responsible Environment, Health, and Safety practices are foundational for every enterprise. Understanding the importance of developing consciousness and adoption of EHS practices in every organisation is the need of the hour. In line with that Rialto has taken several initiatives to become an EHS excellence facility including the commitment to becoming a Carbon Neutral facility by 2028 and Net Zero by 2040.

To recognise & award excellence in Environment, Health & Safety practices among Industries, Confederation for Indian Industries conducted “National level EHS Competitions among the Indian Industries.

More than 220 leading companies including Automobile, Pharma, Chemical, FMCG, Engineering, and Service Sectors across India participated in the Competition and presented their best practices in Environment. Health & Safety.

Rialto bagged the following award in an event, wherein more than 500 participants participated.
